[01] THE MOMENT

The next move is the one to get right.

Mira Home has identified an opportunity to capture additional traffic and demand in Spring 2027. Partnering with Kaldera Analytics will provide the strategic guidance and ongoing collaboration needed to prepare for launch and capitalize on that opportunity.

Mira Home is ready to scale Google Ads and Local Services Ads. New campaigns cost more per customer while they learn, and the efficiency you've built is worth protecting as spend grows.

The work is deciding how much, for how long, and when to pull back.

WHAT TO PROTECT	ACQUISITION COST
WHAT TO SCALE	GOOGLE ADS AND LSA
WHEN TO BE READY	SPRING 2027

[02] OUR VIEW

SPEND IS EASY TO ADD.
CAC IS HARD TO WIN BACK.

So the launch goes market by market, and nothing scales until the step before it holds.

Step 1

CATCH EVERY LEAD

Every quote form and call answered and booked, nights and weekends too. Missed calls can cost LSA rank.

Step 2

TRACE EVERY DOLLAR

Every new customer tied to the campaign and market that produced it, so spend moves on evidence.

Step 3

SET THE GUARDRAILS

CAC ceilings, pull-back rules and first-year cancellation checks for each market, agreed before launch.

[03] HOW WE WORK TOGETHER

We sharpen the calls. You make them.

Two of our lead advisors, both deeply familiar with your accounts, work alongside you through the launch and into the spring season. You make every decision, and your team runs the campaigns. We're the people you pressure-test the plan with.

Two lead advisors

In every session, on every question.

12 hours a month

Combined across both advisors, 6 hours each.

Advice only

Your team owns every account and every change.

ADVISORS	TWO LEAD ADVISORS
TIME	12 HOURS A MONTH COMBINED, 6 PER ADVISOR
MODE	ADVICE ONLY. YOUR TEAM EXECUTES.

[04] EVERY MONTH

ONE RHYTHM, EVERY MONTH.

01

BEFORE WE MEET

You send the latest numbers by market: spend, inspections, new customers and CAC, plus the decisions you're weighing.

02

THE SESSION

Two hours with both advisors by video, working through your questions and the calls in front of you.

03

THE RECAP

After every session: decisions, open questions and next steps, in writing.

04

IN BETWEEN

Direct access to both advisors on your preferred chat channel or by email, as questions come up.

[05] THE FIRST 90 DAYS

Ready before the season turns.

DAY 90

MONTH 1

Inspect

Before launch, we inspect the plan, tracking, every quote form and the phone path, so no lead slips through.

MONTH 2

Treat

Spend goes live in measured steps. We read early results together and set CAC and cancellation guardrails.

MONTH 3 · DAY 90

Protect

We decide what to scale, fix or cut before Spring 2027, when southern markets wake up first and the Midwest follows.

[06] INVESTMENT

ONE FLAT FEE, BOTH ADVISORS, EVERYTHING IN BETWEEN.

$5,000 A MONTH, FLAT

Fixed for the first 90 days and billed at the start of each month. The Month 1 account inspection is a single one-time fee of $1,500, so the first 90 days come to $16,500 in total. At day 90 we sit down together and agree terms for an extension. The engagement includes 12 hours a month in total with both advisors, 6 hours each, not 12 hours per advisor.

The fee covers the decisions that protect acquisition cost while spend grows: catching every lead, tracing every dollar, and guardrails agreed before launch.
